

ZIPGROW™ FOR GREENHOUSES

SCALABLE HYDROPONIC SYSTEMS
MAXIMIZE GREENHOUSE GROWING WITH
ZIPGROW™ TOWERS

Whether you are starting a new business or scaling up an existing one, our Greenhouse rack bundles are equipped with patented ZipGrow™ Towers. With the necessary drip irrigation and gutter collection, this system enables you to connect multiple racks together and be fed by a central plumbing system*

Save Space, Grow More

Optimize your space and production by growing vertically on a vertical plane and take full advantage of natural daylight.

Simple

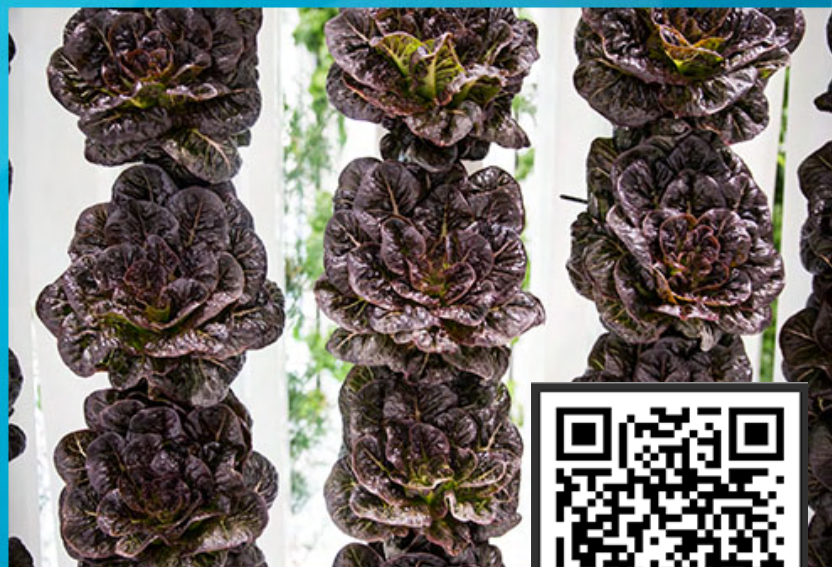

ZipGrow™ Towers are light and easy to move. Growing on a vertical plane also allows for easier access to plants to check for nutrient deficiencies and pests.

Save Time, Save Labor

Lower Inputs, Increase Outputs - Designed with a reusable media and long-lasting components to lower your input costs while maximizing productivity.

Production

	Yield/M ² /Year
Strawberries	30-60 kg
Mustard Greens	75-100 kg
Chili Pepper	60-90 kg
Basil	50-70 kg
Lettuce	500-700 Heads

*We can fully equip your greenhouse with everything required, and have partnered with the best to offer plumbing, ancillary equipment and consumables.
