

ZIP FARM™

ZIPGROW™

CUSTOM BUILT SCALABLE HYDROPONIC FARMS
MAXIMIZE INDOOR GROWING
WITH ZIPGROW™ TOWERS

The ZipFarm™ is a complete indoor farming system centered around the ZipGrow™ Towers functional and space-saving design. Our custom build ZipFarms™ include everything you need to be a successful commercial grower. Designed by farmers, for farmers with no complex machinery and expensive maintenance.

Custom Solutions

Our skilled team custom designs each ZipFarm™ to match your indoor growing space. Then our highly trained installation team will come to your location and build it on-site. ZipFarms™ can be built anywhere in the world supporting local communities and non profit organizations.

Franks Fitts, ZipFarm™ owner
Yellow Hammer Farms, Alabama.

Full Support

To ensure you have all the knowledge needed to become a master grower ZipGrow offers on-site training and remote support. Educate yourself on everything hydroponic related through our online Upstart University courses.

Visit our website or contact a Sales Executive to find out more on why the ZipFarm™ is:

- ✓ Profitable
- ✓ Productive
- ✓ Labor Efficient
- ✓ Sustainable
